

Improve workplace safety,
ensure compliance and
drive operational excellence
with Q-Pulse EHS

AN INTEGRATED APPROACH TO ENVIRONMENTAL, HEALTH AND SAFETY MANAGEMENT

Your organisation wants to achieve business objectives effectively without compromising on its reputation or its wider responsibilities. Q-Pulse EHS is a software product that takes into consideration Environmental, Health and Safety Management, providing a comprehensive system that helps ensure compliance, anticipate and protect against risks and improve systems of reporting.

Our customers operate in a wide variety of industries from Food and Drink to Pharmaceutical and Construction, using Q-Pulse EHS to improve incident reporting, consolidate EHS data, drive operational performance and achieve compliance with ISO and other standards.

Q-Pulse EHS is a web-based software application that addresses all the key areas of Environmental, Health and Safety Management using a modular yet fully integrated approach. Support and guidance are available to transfer skills, allowing you to adapt your management system in line with changing requirements and successfully integrate Q-Pulse EHS with other business management systems to maximise benefits.

IDENTIFY EMERGING RISKS AND OPPORTUNITIES

Protect and safeguard your organisation by identifying and understanding associated risks using Q-Pulse EHS. Raise actions in response to risks, create greater accountability and reduce the possibility of damage to your brand, while gaining recognition for good practice.

MEET LEGISLATION AND COMPLIANCE REQUIREMENTS

Manage and demonstrate compliance to standards or regulations across the entire organisation to avoid fines and penalties, while eliminating any concerns about data security and safety risks to staff, customers and the public.

IMPROVE ENVIRONMENTAL, HEALTH AND SAFETY REPORTING

Q-Pulse EHS fosters consistency of approach and processes by tracking, monitoring and managing incidents and activity more accurately, by engaging employees in the reporting process and providing status visibility across the organisation. This provides greater opportunity for improvement and allows resources and effort to be deployed more effectively.

LAW

Law module to create unique Profiles and Checklists enabling relevant legislation to be identified for in excess of 30 countries, ensuring compliance with multiple jurisdictions.

RISK

Risk module streamlines and simplifies risk assessment and reduction with a variety of templates and scoring models that create an awareness of overall risk.

INCIDENT

Incident module provides a structured and consistent approach to identifying causes and tracking trends using Dashboard and reports for KPIs, driving continual improvement.

ENVIRONMENT

Data module to capture and monitor relevant data securely throughout the entire organisation for compliance with internal standards and legal requirements.

AUDIT

Audit module provides a wide range of customisable audit templates to evaluate the fulfilment of compliance with legal requirements and other criteria and standards.

DOCS

Docs module provides a document library and links to external sources to access, manage and control documented information from a single place.

Q-Pulse EHS is mobile by design and offers a choice of cloud or on-premise deployment, best in class analytics and management reporting. At Ideagen we invest in our technology strategy and the specific roadmap of each application. This means that you can grow into the solution with Ideagen to support you as your organisation's risk maturity progresses in the years ahead.

Paul Callaghan
Product Manager, Q-Pulse EHS

ABOUT IDEAGEN

Ideagen plc is a developer of enterprise governance, risk and compliance (GRC) software for organisations operating in highly regulated industries, with operations in the UK, USA, the Middle East and Eastern Europe. With more than 20 years' experience and success in the global regulatory environment, we have earned our customers' trust by building long-term relationships in which we work closely together to meet and exceed their quality, audit and safety management goals.

We have more than 2000 customers around the world using Q-Pulse in industries like aerospace and defence, aviation, food and drink, healthcare, life sciences and manufacturing. Our solutions have been designed and continually developed in close consultation with quality, audit and risk professionals from industries that include aviation, aerospace and defence, healthcare and life sciences, energy, manufacturing and services and engineering.

We are committed to continually improving the quality of our products, the environmental impact of our operations and the security of the information that we safeguard and this commitment is demonstrated by our certifications to ISO 9001, ISO 14001 and ISO 27001.
