TRAINING PROGRAMMES

Working at Heights Training Course

Course Objective: Our Working at Heights Training course educates staff on how to assess risks and use the correct equipment to ensure their safety. It covers both high risks that require thorough planning, and appropriate safety measures for low risks such as using a ladder or a kick stool for a short period of time. After completing the working at heights course, learners will be knowledgeable and confident in taking control of their safety during work.

Target Audience: All employees involved in carrying out work on structures above six feet – Painters, construction workers etc.
